

Shanghai Powerlong Museum Hosts Marina Fedorova's Exhibition

On November 15, Shanghai Powerlong Museum held an opening ceremony of Marina Fedorova's solo exhibition "Journey with Cosmodreams: Exploring the Infinite".

The exhibition is part of the ongoing Cosmodreams art project and invites audiences to experience an artistic realm that focuses on the future, the natural world, and the human spirit of exploration.

The exhibition "Journey with Cosmodreams" will be held at the Powerlong Art Museum in Shanghai from November 16, 2024, to February 16, 2025. Cosmodreams is an artistic project that celebrates space exploration and romantic memories of the USSR's achievements. Fedorova reinterprets the philosophy of futurism, contemplating where it might lead us in the 21st century.

In her work, the artist combines traditional painting with cutting-edge digital technologies, including augmented reality (AR), video art, and interactive zones. The exhibition is thoughtfully structured to allow viewers to feel the contrast between cosmic space and earthly nature through visual, color, and sound elements.

The exhibition by a Russian artist in one of Shanghai's art venues marks an important stage in cultural exchange between Russia and China, showcasing the power of art to bring these two great cultures closer together and creating a new perspective on the global stage. The artist sees potential in the spiritual connections between the two nations, which can help the audience to understand and experience the artist's fresh works influenced by Russian heritage.

Marina Fedorova, artist: "The exhibition in China is not just a display of works; it's an opportunity to build bridges between our cultures. China has always been a source of inspiration for me—a country with profound philosophy, traditions, and culture. I hope this exhibition will foster dialogue between our cultures because art knows no boundaries."

The Cosmodreams project is made possible through the active support of Sputnik Partners, a company dedicated to preserving and promoting cultural and historical heritage.

The exhibition will take place from November 16, 2024, to February 16, 2025, at the Powerlong Art Museum (Shanghai Powerlong Museum), Hall 7, located at 3055 Caobao Road, Minhang District, Shanghai. Entrance is charged.

About Marina Fedorova

Marina Fedorova (1981), born in St Petersburg and now living in Munich, Germany, is a notable contemporary artist. Marina Fedorova's artworks were nominated for the Kandinsky Prize. Her paintings have been shown in dozens of solo and group exhibitions throughout Europe, China, and Russia. Fedorova's artworks were acquired for the permanent collections of the State Hermitage Museum, the State Russian Museum, Erarta Museum of Contemporary Art, as well as by a number of private collectors. She is the first contemporary artist to create a large-scale integrated art project - Cosmodreams, which delicately blends painting, sculpture and digital technology to create unique and multidimensional art experiences.

About Cosmodreams

Cosmodreams art project presents a series of artworks created by contemporary artist Marina Fedorova from 2017 in a new form of exhibition. Cosmodreams' exhibition combines oil on canvas painting, sculpture, video, digital art, and other art forms, reflecting the artist's extensive and diverse aesthetic language. Cosmodreams also incorporates digital technologies, including AR and VR. As a complement to immersive video art and interactive art installations, they present the audience with a creative and immersive art experience. The Cosmodreams series embodies Marina Fedorova's long-term thinking on topics such as space exploration and the future, as well as her imagination and self-expression in response to current social issues and cultural contexts related to these themes, including environmental protection, women's empowerment, and the younger generation.
